

COLLINS CONSTRUCTION MANAGEMENT

EXECUTIVE PROGRAM LEADERSHIP / CAPABILITIES

FROM PURSUIT TO DELIVERY. THROUGH FINAL CLOSEOUT.

Principal-led construction and program management consulting for federal and commercial teams, drawing on professional experience in complete JOC/IDIQ program leadership, estimating, execution, scheduling, and closeout.

10+ YEARS

Federal construction experience

\$57M+

Portfolio under professional oversight

CORE CAPABILITIES

Senior Project & Program Management

JOC/IDIQ program direction, concurrent task orders, staffing, subcontractor coordination, client and Government communications, operational oversight, and construction delivery.

Proposal Development & Estimating

Solicitation support, scope narratives, takeoffs, subcontractor pricing, proposal strategy, and pre-award planning.

Construction Management & Contract Delivery

Field coordination, project documentation, submittals, procurement, quality, modifications, punch lists, and closeout.

Primavera P6 Scheduling & Project Controls

Baseline schedules, updates, critical path, logic reviews, progress assessment, sequencing, time impact support, and federal schedule documentation.

Project Team Leadership & Development

Operational guidance to project engineers and developing project managers, priority setting, cross-team coordination, and practical issue resolution.

COLLINS CONSTRUCTION MANAGEMENT

SELECTED EXPERIENCE / TEAMING

EXPERIENCE INFORMED BY DIRECT DELIVERY LEADERSHIP.

Antonio Collins | Founder & Principal. 10+ years of federal construction experience across project engineering, field supervision, project management, program oversight, and CPM scheduling. B.S. in Construction Management; PMI-SP; Fall Protection Competent Person; CQM-C; OSHA 30; and EM 385-1-1 training.

REPRESENTATIVE PROFESSIONAL EXPERIENCE

JOC / IDIQ Program Leadership

Multi-project task order oversight and full lifecycle responsibilities across opportunity development, pricing, construction execution, stakeholder management, and closeout.

Occupied Federal Facility Modernization

Scheduling and construction coordination experience involving mechanical and fire protection systems, phased renovations, and maintaining facility operations.

European Military Barracks & Housing Renovation

Subtier schedule and project controls support for phased, multi-building military renovation, design approvals, work sequencing, critical path, procurement, commissioning, and turnover.

Environmental Restoration & Civil Infrastructure

Subtier scheduling and progress controls support on phased environmental construction and restoration projects.

Project Team Leadership & Closeout

Leadership across concurrent construction workstreams, submittal and issue resolution, deficiency tracking, Government coordination, and team member development.

WHO WE SUPPORT

Federal prime contractors | JOC/IDIQ program teams | Pursuit and estimating groups | Small business teaming partners
